

# SPEECH AND LANGUAGE PARENT NOTE

*February 2013*  
*Speech and Language Pathologist: Angèle Fournier*

## Flubber Recipe

### *FLUBBER/GAK Recipe*

- In a **BIG** bowl, mix together  $\frac{3}{4}$  cup water, 1 cup of Elmer's white glue, and 6 drops of food coloring.
- In a **SMALL** bowl, mix together 2 tsp of Borax and  $\frac{3}{4}$  cup water
- Pour the contents of the **BIG** bowl into the **SMALL** bowl. Gently shake for 1 minute and then put your hands in!!

*Please contact me if  
you have any questions*

## Speech and Language Targets

*Today we made Flubber to target expressive and receptive language, articulation, sequencing, and turn taking.*
